WORK EXPERIENCE

Business Analyst, Membership & Retail Banking

Chartway Federal Credit Union | *Virginia Beach, VA (Hybrid)* | **Aug 2026 – Present**

- **Partner with business leaders** to **understand strategic goals** and **propose the metrics and analyses** that answer their questions
- Designed and **built 10+ Power BI dashboards** for Virtual Banking and Membership from concept through delivery, **using SQL and DAX**
- Delivered **cost savings** by identifying optimal branch hours and locations through **performance analysis**
- Recommend new data points and infrastructure to close reporting gaps and support future analysis

Technical Curriculum Writer (Contract)

Mark Cuban Foundation | *North Carolina (Remote)* | **Jun 2026 – Present**

- **Develop Python and SQL curriculum spanning 23+ topics for national bootcamps**, grounded in the mathematical foundations of AI
- **Convert course materials into structured JSON** for the Lovable learning platform
- Design assessments and rubrics for supervised learning pipelines and model evaluation

Residential Graduate Associate | Graduate Research and Teaching Assistant

College of William & Mary | *Williamsburg, VA* | **Aug 2025 – Jul 2026**

- **Designed and taught curriculum for first-year undergraduates** across **Business Analytics, R statistics, and Python data manipulation**, translating regression, classification, time-series forecasting, and token economics into applied business lessons
- **Led independent NLP research on critical thinking and cognitive offloading in graduate AI use, building Python pipelines with tokenization, TF-IDF, embeddings, and Facione-based scoring**

Manager, Operations & Analytics

TikTok Shop | *Bangkok, Thailand* | **Jan 2024 – Jul 2025**

- Modeled **10M+ order-level records using SQ**L to rebuild contribution margin frameworks for Super Brand Day packages, **turning per-package margins from -5% to +45%**
- Built executive **KPI dashboards in Tableau and Power BI** tracking conversion, CAC, fulfillment costs, and retention for weekly senior leadership reviews
- Developed **price elasticity and demand forecasting models** (regression, time-series) to optimize subsidy allocation across Southeast Asian markets
- **Analyzed A/B tests** on pricing incentives and checkout flows, identifying drivers of high-value order retention that shaped product roadmap decisions

Senior Associate, Business Intelligence | Graduate Management Trainee

Shopee | *Bangkok, Thailand & Ho Chi Minh City, Vietnam* | **Jul 2021 – Dec 2023**

- **Built automated SQL dashboards** tracking campaign performance, surfacing optimization opportunities that **cut costs by 30% while sustaining a 50%+ performance uplift**
- **Built a framework analyzing macroeconomic impacts** on Shopee's performance, **generating $85M in cost savings**; presented results to finance leadership
- Developed a **dynamic interest-rate model** for newly launched micro-loans, **securing 15% adoption within the first month**
- Led **cohort and scenario analyses for 11.11 and 12.12 campaigns**, **contributing to 35% YoY GMV growth**

EDUCATION

M.S. Business Analytics (STEM Program), College of William & Mary, Raymond A. Mason School of Business – 2026

GPA: 3.88 | Beta Gamma Sigma Honors | Student Contributor Award | Nominated Class Tutor
Certifications: Claude 101, AI Fluency Program, AWS AI Practitioner, FERPA Compliance

B.B.A. Marketing and Finance, Thammasat University, Thammasat Business School – 2021
Case Team Honors

LEADERSHIP & INVOLVEMENT

AI Fellow

William & Mary AI Fellows Program | Williamsburg, VA | **Jan 2026 – Present**

- Coordinated AI Day, an institution-wide event on AI in corporate, higher education, and military transition contexts; managed logistics and speaker sourcing

Tech Summit Club Member

William & Mary | *Williamsburg, VA* | **Oct 2025 – Present**

- Led **Python fundamentals** and Claude-for-business workshops for MBA students and small business owners

KEY PROJECTS

Newman Exclusive | Marketing & Web Platform Lead | Bespoke Tailoring, Bangkok | Ongoing

- Lead marketing campaigns (influencer partnerships, budget, brand identity) and own the company website, including payments, scheduling tools, and SEO

Patient Retention & Churn Prediction | R, Random Forest, Logistic Regression | Lackey Free Clinic, 2025

- Built classification models to identify key drivers of patient churn and delivered a retention roadmap to clinic leadership

FBI Crime & Census Data Pipeline | Python, PySpark, Clustering | 2026

- Built an end-to-end pipeline integrating FBI crime and Census socioeconomic data; applied clustering and predictive modeling to recommend public safety resource allocation

TECHNICAL SKILLS

- Languages & Tools: SQL (T-SQL, PostgreSQL, BigQuery; CTEs, window functions), Python (Pandas, NumPy, Scikit-learn, PySpark), R, Git
- BI & Visualization: Power BI (DAX, Data Modeling), Tableau, Excel, Alteryx
- Analytics & Modeling: Machine Learning, NLP, Regression & Elasticity Modeling, Time-Series Forecasting, A/B Testing
